PROFILE

IT professional with nearly a decade across higher education, nonprofit, real estate and MSP work. I'm the person who fixes it, fixes it so it stays fixed, then writes the guide, builds the tool and teaches the team. At St. Francis College I moved from consultant to Network Manager in nine months, and my work spans the whole stack. I moved the college's single sign-on to Microsoft Entra ID and its phones to Microsoft Teams. I replaced its portal vendor with SharePoint, built self-maintaining email audiences from the student information system, consolidated security onto Microsoft Defender, and wrote and shipped an in-house admin console for the IT team.

ROLES I'VE PROVEN

Identity & access engineer

Network & infrastructure

Software & automation

Microsoft 365 architect

Endpoint management

Governance & documentation

Security operations

Unified communications

Data, training & mentoring

EXPERIENCE

St. Francis College — Brooklyn, NY

Network Manager, IT (Jan 2026 – Present) · IT Consultant (Apr 2025 – Jan 2026)

Identity & Access

- Planned, presented to Cabinet and carried out the OneLogin → Microsoft Entra ID SSO migration: 74 applications, about 18,000 identities, cutover run personally over the New Year's holiday, OneLogin retired within days.
- Launched a single apps front door, self-service password reset and MFA, with user guides, FAQs and a service-desk admin guide. Leading identity governance: lifecycle rules with the Registrar, least-privilege admin accounts, and phishing-resistant MFA.

Microsoft 365 & Collaboration

- Built **Smart Audiences**: 118 email audiences and matching access groups that update themselves from the SIS (major, program, cohort, term, employee type). Access follows a student overnight, with no ticket.
- Appointed by the President to lead IT for the **SFC Digital Campus**: replaced the third-party portal with mySFC, yourSFC and SupportSFC on SharePoint (3 hubs, 26 sites), scripted with PowerShell and Microsoft Graph, handed off to 17 departments, live July 2026.
- Moved 235,000+ files from the NAS to SharePoint. Designed per-club Microsoft 365 Teams to replace shared, licensed club accounts.

Security

- Primary technical contact for the college's managed SOC. Consolidated separate antivirus and email-security vendors onto Microsoft Defender across Windows, macOS, Linux and servers, and expanded data protection across Microsoft 365.

Telephony, Endpoint, Network & Cloud

- Wrote the business case for, and led, the RingCentral → Microsoft Teams Phone migration: 199 numbers ported, E911 validated, every room checked on go-live day. Then redesigned the auto attendants and call queues.
- Leading the SCCM → Intune migration of 500+ Windows PCs around four device personas (Autopilot, BitLocker, LAPS, Windows Hello), with no existing devices wiped.
- Supported the move to Azure VMware Solution (159-VM tracker). Moved backups to Rubrik with immutable storage. Documented the network and built a master inventory. Work across Cisco ISE/WLC/Nexus, Azure VPN and Cloudflare.

Building, Governance & People

- Wrote and shipped the **SFC Account Manager**, a Windows console that puts AD, Entra ID, Exchange, Defender and Intune in one window. It has three role-based editions, signed installers, auto-update and a test suite, and I launched and trained the team on it. Set up the IT department's GitHub organization and a documented scripts library.
- Wrote the Cabinet-adopted modernization roadmap, a 64-document IT SOP catalogue with an interactive process map, and "The Dream", a college-wide Microsoft 365 operating model presented to the President.
- Produced analytics for the President and CIO (call analytics, accreditation ticket analysis). Guided a FERPA-conscious Copilot pilot. Stood up KACE ticketing and Power BI Report Server. Mentor student workers and interns.

Independent IT Consultant — Self-Employed, New York, NY

Apr 2024 – Apr 2025

- Microsoft 365 / SharePoint implementations, asset-management assessments, and cabling and hardware projects for NYC small businesses. This work led directly to the St. Francis College engagement.

Ogden CAP Properties — New York, NY

Help Desk Manager / Network Administrator · Jun 2023 – Mar 2024

- Led a ~10-person team through an urgent datacenter migration that cut the equipment footprint by 66% and saved about \$200K a year. Fixed the findings from failed IT audits across six properties (~500 users).
- Ran Fortinet / Cisco ASA firewalls, Meraki MDM with Okta MFA, and PDQ-automated patching. Interim team lead on 24/7 on-call. Rebuilt the help-desk knowledge base.

Union for Reform Judaism — New York, NY

Help Desk Manager / System Administrator · May 2019 – Jun 2023

- Hybrid AD/Azure (Entra ID and Intune) for 350+ users across 15+ sites in the US, Canada and Israel. M365 Global Admin. Played a key role in the Azure AD / SSO migration.
- Led the COVID shift to remote work: about 200 laptops prepped and shipped. Designed a summer help-desk SLA that cut response times about 30%. Saved about \$100K through PowerApps, Power Automate and PowerShell automation.
- Regularly acted for the IT Director. Ran KnowBe4 phishing simulations and trained 350+ users on MFA.

Earlier

- **Pace University ITS**, Client Support Officer (2018–2019): PowerShell AD automation, SCCM deployments, and the campus-wide Windows 10 upgrade across 50+ rooms.
- **MicroCare, Inc. (MSP)**, Field Technician (2017–2018): networks, SonicWall firewalls, CCTV and POS for 8+ NYC businesses.

EDUCATION, HONORS & COMMUNITY

- **B.S. Information Technology, Minor in Information Assurance**, Pace University (2021) · Vice President, Cybersecurity Club · Peer Mentor
- **National Cyber League**, Gold Bracket (top 15% nationally) three straight seasons. Peaked at the 93rd percentile, and ranked in the top 2% nationally in Cryptography.
- Volunteer NCL team coach at Pace (2021). Author of a cybersecurity career guide for a mentoring community.

CERTIFICATIONS & SKILLS

- ManageEngine ADManager Plus Associate (MECPA, 2025) · Continuant Microsoft Teams for Calling (2025) · Microsoft AZ-104 Azure Administrator (lapsed) · AccessData Certified Investigator (2020–21)
- **Identity & security:** Entra ID, SSO/SAML/OIDC, Conditional Access, MFA/SSPR, Defender XDR, Purview, MDR/SOC · **M365 & endpoint:** Exchange Online, SharePoint, Teams Phone, Intune, Autopilot, SCCM, AD
- **Network & cloud:** Cisco ISE, Catalyst 9800, Nexus, Firepower, Azure, AVS/VMware, Rubrik, Cloudflare · **Build:** PowerShell, Microsoft Graph, Power Automate, Python, Git/GitHub, SQL, Power BI, KACE
